

Cookie Statement

V1.0 – Last updated July 18th, 2018

To make this site work properly, we sometimes place small data files called cookies on your device. Most big websites do this too.

1. What are cookies?

A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. It enables the website to remember your actions and preferences (such as login, language, font size and other display preferences) over a period of time, so you don't have to keep re-entering them whenever you come back to the site or browse from one page to another.

2. How do we use cookies?

Our website uses cookies. Cookies are stored by Google Analytics, the corporate service which measures the effectiveness and efficiency of our website. Google Analytics mainly uses first-party cookies to report on visitor (aka. user) interactions on our website.

The cookie-related information is not used to identify you personally. These cookies are not used for any purpose other than those described here.

The FSC website exclusively uses cookies from Google Analytics. The cookies that we use are the following:

Cookie Name	Expiration Time	Description
_ga	2 years	Used to distinguish users
_gid	24 hours	Used to distinguish users
_gat	1 minute	Used to throttle request rate

3. How to control cookies?

You can control and/or delete cookies as you wish - for details, see aboutcookies.org. You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work.
